

HELPING YOU MAKE THE RIGHT
HUMAN RESOURCE DECISIONS

AN OUTRIGHT APPROACH

We provide professional Human Resource support and guidance. Driven by an employment attorney, we understand that HR issues are best addressed proactively. We perform risk assessments and investigations, answer employment-related questions, and work with clients to create custom policies and procedures that make sense for their industry and culture.

When employment issues arise, most companies are in a tough position. They can either try to handle it themselves, or pay massive legal fees. OutrightHR was created to provide a third option: you pay a flat monthly fee, we provide unlimited support.
